📁 Projects

Project 5 - DataStage to SnapLogic Migration
Technology - SnapLogic, DataStage, Tidal, Postman
- Involved in the migration of integration projects, analyzing legacy DataStage jobs and migrating them to SnapLogic-based solutions.
- Migrated the jobs on the basis of the documented information.
- Recreated complex workflows in SnapLogic, aligning with existing business logic and performance expectations from legacy DataStage jobs.
- Performed end-to-end testing of migrated pipelines, ensuring data accuracy, proper error handling and seamless integration with downstream systems.
- Collaborated with stakeholders and technical teams to validate requirements, troubleshoot issues and optimize pipeline performance during migration phases.

Project 4 - MuleSoft to SnapLogic Migration
Technology - SnapLogic, MuleSoft, Postman
- Migrating and implementing 10+ complex interfaces from MuleSoft to SnapLogic, integrating business systems and ensuring data consistency.
- Developed integration solutions using SnapLogic and Postman, creating workflows to ensure seamless data processing and transformation across systems.
- Collaborated with the testing team during SIT to ensure smooth system integration and supported UAT by addressing user feedback and adjusting workflows as needed.

Project 3 - Sterling Integrator and Axway Support
Technology - SnapLogic, Sterling Integrator, Axway, ServiceNow
- Experienced in Dashboard Monitoring and debugging Business Processes in Sterling Integrator to identify issues and performance techniques.
- Worked on the EDI Transactions (850,810,856,997 etc.)
- Hands-on experience on Axway for monitoring and debugging issues.

Project 2 - GlobalScape MFT Developement
Technology - SnapLogic, GlobalScape MFT
- Followed documentation, analyzed and understood pipelines and implemented new requirements on existing project.
- Experienced in BAM which is used as a Dashboard for monitoring files.
- Documented integration and login procedures as per client standards.

Project 1 - MoveIT to SnapLogic Migration

Technology - SnapLogic, MoveIT, Postman

- Migrated 25+ interfaces to SnapLogic, ensuring seamless data integration and developed workflows for tasks like data modification, file movement & archiving.
- Configured secure communication protocols (FTP, FTPS, HTTP, HTTPS, SFTP, SMB) for efficient and reliable data transfers.
- Monitored pipeline performance, resolved issues and optimized processing speed, reducing errors and improving efficiency.
- Built an automated error logging system with email notifications, including detailed timestamps and filenames.
- Managed pipeline schedules, triggered tasks and participated in daily/biweekly standups to report progress and tackle new assignments.
- Documented procedures adhering to client-specific standards.
