Profile

Certified SnapLogic Developer with 3.4 years of experience in designing and managing integration solutions using SnapLogic. Successfully completed two end-to-end migration projects. Experienced in SnapLogic development, troubleshooting and Postman, ensuring seamless data processing, system communication and error handling. Recognized for strong problem-solving, communication skills and delivering projects independently and in team environments.

Professional Experience

Infosys Limited   Jun 2022 – Present
Senior Systems Engineer (Senior ETL Developer)   Pune, In
- SnapLogic, ETL, iPaaS, Cloud Integration, Postman, Tidal, Data Integration, SQL, MuleSoft, DataStage, JSON, XML

Projects

Project 3 (Current)
Technology - SnapLogic, DataStage, Tidal, Postman
- Migrated legacy DataStage jobs into SnapLogic by analysing existing workflows and documented requirements.
- Recreated and optimized complex workflows while maintaining business logic and meeting performance expectations.
- Performed end-to-end pipeline testing, ensuring data accuracy and seamless integration with downstream systems.
- Collaborated with stakeholders and cross-functional teams to validate requirements, resolve issues and enhance pipeline performance during migration.

Project 2
Technology - SnapLogic, MuleSoft, Postman
- Migrated and implemented 10+ complex interfaces from MuleSoft to SnapLogic, enabling seamless integration across multiple business systems and ensuring data consistency.
- Designed and developed end-to-end integration solutions using SnapLogic and Postman, including workflows for data transformation and processing.
- Partnered with the testing team during SIT, resolving defects and ensuring smooth integration and provided UAT support by addressing user feedback and optimizing workflows.

Project 1
Technology - SnapLogic, MoveIT, Postman
- Migrated 25+ interfaces from MoveIT to SnapLogic, building workflows for data modification, file movement and archiving to ensure seamless integration.
- Configured secure communication protocols (FTPS, HTTPS, SFTP, SMB) to enable efficient and reliable data transfers.
- Developed and deployed an automated error logging system with email notifications, improving monitoring accuracy and reducing resolution time.
- Monitored and optimized pipeline performance, reducing errors and enhancing processing speed; managed schedules, triggers and supported delivery in daily/biweekly standups.
- Documented procedures and best practices as per client-specific standards for future reference and knowledge sharing.

Technical Skills

Integration & Cloud Platforms: SnapLogic (Certified), MuleSoft, iPaaS, Cloud Integration, Postman, Tidal Schedular
ETL & Data Management: ETL (Extract, Transform, Load), Data Integration, DataStage, SQL, Oracle Database, Snowflake
Tools and Technologies: Draw.io, Confluence, Microsoft Office Suite (Excel, Word, PowerPoint) ServiceNow, JSON, XML
Soft Skills: Effective Communication, Team Collaboration, Presentation Skills, Knowledge Transfer (KT) Delivery

Education

B.E. in Civil Engineering   Aug 2018 – Jun 2021
Sant Gadge Baba Amravati University (SGBAU).

Certifications

SnapLogic Certified Administrator | SnapLogic Certified Integrator | SnapLogic Certified Enterprise Automation Professional | SnapLogic AgentCreator Bootcamp | Partner Integrator Library | Google Cloud Digital Leader | Google Generative AI Leader | AZ-900 | MS-900 | DP-900 | AI-900 | Infosys Certified Digital Engineering Cloud Professional

Awards

Pune DC Excellence Award 2025 by Infosys Limited (Sep 2025) **| Insta Award** by Infosys Limited (Aug 2024)
